Credit card processor helps small businesses who may need a cash advance quickly

Bankcard Empire, a leading credit card processor and provider of merchant services can help small business owners acquire cash when they need it. It is not like a conventional bank loan where you fill out a ton of paperwork. There is no interest, no personal guarantees, and the business owner can use the funds for whatever they need such as improvements, paying off debts, buying out a partner, or saving money for a rainy day and it is not reported to the credit bureau. Cash Advances can be up to \$250,000 in as little as ten days. If a business has been operating at least 6 months with 4 months worth of credit card processing receipts and at least \$4000 of processing fees per month, they qualify for a cash advance business analysis. Additionally, Bankcard Empire guarantees to meet or beat the current processing rates a business is paying. For a no obligation analysis and to find out if a business qualifies for a cash advance, call 1-888-298-1888 or go to www.bankcardempire.com.
