

Miscosoftware Released Deva xFTP Ver4.0 in November 2, 2008

By Michael Yao

Dated: Nov 05, 2008

November 24, 2008, Miscosoftware announces the release of Deva xFTP ver4.0.0 Build 1200, a professional, Windows-based FTP Client Software for Webmaster that integrated Certificate Authority(CA) Center, Web Link Checker, Sitemap Generator and HTML/xH

Every Webmaster must transfer files between local client machine and remote server every day. And perhaps, test the links in web pages, Check the orphan files in site directory, building Sitemaps when the Web site updated, and validate the HTML/xHTML grammar conforming to the official rules. These burdensome works are time-consuming and need a lot of tools to manage the web site.

Deva xFTP offers a professional solution for anyone who wants to improve managing his(her) Website on the internet. It integrated faster File Transfer Engine, CA Center, Link Checking, Orphan files Checking, Sitemap Generating, HTML/xHTML Validator and a series of folder tools into one main Deva xFTP software. With a wide array of easy-to-use web managing tools, it greatly simplifies the website management, so don't have to deal with a great deal of complex programs. Using Deva xFTP, webmasters will improve the site management efficiently and save much time.

In version 4.0, Deva xFTP improved the high-powered File Transfer Engine and runs more stabile and faster than ever. It supports more file transfer protocols: standard FTP, FTPS over TLS/SSL implicit port 990, FTPS over SSL explicit through AUTH FTP extension, FTPS over TLS/SSL explicit through AUTH FTP extension and SFTP using SSH2(Secure Shell).

In addition, the cool modern Graphical User Interface (GUI) makes Deva xFTP the perfect tool for both new and experienced users. It supports replacing skins feature, allows users to customize many modern Office 2007 style interfaces.

Deva xFTP is the right choice for Web site management. It is both affordable to every Webmaster and a real value.

System Requirements

Deva xFTP will run under Windows 98, Me, NT4, win2000, winXP and win2003 on an Intel-based 486 PC or greater. The program requires 30 MB of RAM and 7MB of disk space.

Price and Availability

Deva xFTP ver4.0 is available now. The price is \$49.99USD. A trial version is available from the Miscosoftware website at:

<http://www.miscosoftware.com/>.
