

ASPHostCentral.com Is Now Offering ComponentOne Application Hosting

By ASPHostCentral.com

Dated: Nov 12, 2008

All customers are now able to obtain and use ComponentOne applications free of charge

ASPHostCentral.com, a premier provider in advanced Windows hosting services, proudly announces the availability of the ComponentOne hosting in all our servers environment.

This unique opportunity is provided to all our new and existing customers and the cost to have this ComponentOne application is FREE of charge. For more details about this product, please visit our website at <http://www.asphostcentral.com/ComponentOneHosting.aspx>.

"Starting from today, ASPHostCentral.com has formed a strategic partnership with ComponentOne," said Tom Heinrich, General Manager of ASPHostCentral. "We are certainly looking for partnership with other companies and communities that truly concentrate in providing support on Windows and ASP.NET Hosting".

"ComponentOne product lines encompass a diverse range of high-quality, cutting-edge tools and solutions enabling users to successfully build powerful, robust applications. ComponentOne is the premier provider of a diverse set of .NET, ASP.NET, WPF, Silverlight, Mobile, and COM components focused on accelerating visual development with drag-and-drop tools that simplify the design-time experience and extend the power of Microsoft Visual Studio," said ASPHostCentral.com Senior Support Specialist, Ryan Dalgish.

ASPHostCentral also proudly announces the availability of several ComponentOne applications on our server environment, such as ComponentOne Studio for ASP.NET1.1, ComponentOne Studio for ASP.NET2.0, ComponentOne Studio for Mobile Devices 2008, ComponentOne Studio for WPF 2008, ComponentOne Studio for ActiveX 2008 and ComponentOne Studio for WinForm 2008
