

SEO Pros at Web-Magic.Biz Offer Special Search Engine Optimization Deals

By Web-Magic

Dated: Nov 12, 2008

In the wake of the market collapse, Web-Magic has decided to offer a special search engine optimization plans to its business customers. The new SEO package provides search engine management services on a quarterly plan starting at just \$600/year.

If you don't have a website in today's world, you're losing business. Worse - if you have a website that potential customers can't find or don't like, you're throwing away money.

It's nice to have a great looking site, but if your Web designer doesn't understand marketing, nobody is going to visit. Likewise, it's great to have lots of traffic, but if the visitors to your site aren't potential buyers, how do you benefit from the visits? Further, if poor site design makes it difficult for visitors to find the information they're looking for, do you think they're going to call?

Web-Magic is in the business of customer success. If you don't succeed, neither do we.

Our professional staff provides effective, professional site design, search engine ranking and promotion services for business. We couple proven design and marketing strategies with the technical expertise needed to optimize your Web site. We track your visitors over time, then we expand on successes to bring you site targeted visitors who are actually looking for your products and services.

Do you take your car to a plumber for maintenance? Then why would you deal with a computer repair shop for your Web Marketing Projects? We don't dabble in Internet Marketing Solutions - it's our entire focus.

In Georgia, if you're looking for Internet marketing success, Web-Magic is your Web Solutions Partner!

Contact us today for a FREE initial consultation to discuss how we can help your business grow by making the Internet work for you!

###

Web-Magic was founded in 2001 with 3 customers in a basement in Cartersville, Georgia.

From a company originally concerned with Internet website development, we are now involved in both Internets and Intranets, eCommerce, Search Engine Optimization (SEO), Site Tracking and Analysis, Interactive Presentation CDs, and even Online Audio and Video Solutions!

Our essential philosophy has been and always will be that we are in the business of customer success. If our customers don't succeed, neither do we. That consistent belief has helped us maintain relationships with more than 98% of all the customers we have acquired over the years.

We are proud to say that after all that work, we still service those 3 original successful customers.

Thank you for giving us the opportunity to EARN your business!
