

GoHoster adds Rich, Interactive Features with JS-Kit

By GoHoster

Dated: Nov 13, 2008

Internet Startup GoHoster, the free webpage creation tool, today announced its partnership with widget developer JS-Kit.

Internet Startup GoHoster, the free webpage creation tool, today announced its partnership with widget developer JS-Kit. The partnership will allow GoHoster pages to have rich, interactive social networking features.

"Allowing the GoHoster community to publish interactive web pages with visitor feedback widgets such as JS-Kit's is a great addition" said Brian Fowler founder of GoHoster.com

"This is just the first step in what's going to be a strong partnership" continued Mr. Fowler.

The JS-Kit interactive widgets will be accessible to the GoHoster community through its page creator web tool. GoHoster publishers will be able to create rich, interactive pages using JS-Kits comments, rating and polls widgets with cut and paste ease.

"Lowering the technical bar to participation on the web has been a key promises of Web 2.0, "said Khris Loux, CEO JS-Kit, "We are please to be working with GoHoster to turn this promise into a reality."

GoHoster is still in an early testing phase. If you're interested in taking it for a test drive, visit <http://www.gohoster.com> and create an account and start building your GoHoster pages today.

About GoHoster

GoHoster is a free online tool that makes it easy for anyone to create and publish useful, attractive web pages in just minutes.

About JS-Kit

JS-Kit provides ultra-lightweight, feature-specific community services for any site via a hosted platform. The company's services offer unparalleled ease of implementation and a compelling combination of power and affordability. JS-Kit empowers publishers by delivering must-have features, promoting rich interactivity and building community and customer knowledge.
