Internet Sartup GoHoster, the free webpage creation tool, today announced its partnership with widget developer SocialTwist. The partnership will allow GoHoster pages to be powered by SocialTwist's Tell-a-Friend widget.

"Offering this level of functionality to the GoHoster community through the simplicity of a web widget is a testament to the work that has gone into its development" said Brian Fowler founder of GoHoster. "We look forward to a long lasting relationship with SocialTwist" continued Mr. Fowler.

The Tell-a-Friend widget lets GoHoster page visitors reach their friends on Email, IM or Social Networks without leaving the GoHoster page.

The Tell-a-Friend Widget is accessed through the GoHoster Page Creator, once you've chosen to edit an existing page or create a new page. The Tell-a-Friend Widget appears by default on all published pages.

"We are excited to provide the GoHoster community with the ability for word-of-mouth marketing" said Vijay Pullur, Co-founder of SocialTwist.

The partnership marks the first on a road-map the company has planed for creating a highly desirable social publishing network.

### About SocialTwist

SocialTwist brings Widget Applications that can add a twist to the way visitors use a website or a new way employees of a company collaborate at work. The Tell-a-Friend widget is available for free at [www.socialtwist.com](http://www.socialtwist.com). SocialTwist is a business of Pramati Technologies.
