

## Adolix Released its Free Keyword Tracking Tool

By Adolix

Dated: Nov 17, 2008

*Monitor your keywords evolution over time with Google, Yahoo and MSN. Add keywords in bulk, view charts and check them daily.*

Adolix Software released its latest online tool. Adolix Keyword Tracking Tool is a free web based tool that will help webmasters in their SEO efforts. They can monitor their keywords ranking over time, and view charts of their evolution.

Higher position in Google for keywords could be the difference between success and failure. Both webmasters and SEO specialists know that is very important to see how keywords evolve over time. Using Adolix Keyword Tracking Tool they can see on daily bases if their marketing strategy is working.

Adolix Keyword Tracking Tool allows its users to add keywords in bulk and to monitor multiple keywords for a certain URL. Keywords can be disabled or deleted. Users can instantly see how a keyword is ranking and even check all keywords at once.

No professional experience is needed, online tutorials and support are more than enough for beginners to learn how to use the tool. Adolix Keyword Tracking Tool is free but it requires users to create an account in order to add keywords.

###
