

Perry Baromedical Names Glenn Dennis President and Chief Operating Officer.

By Perry Baromedical

Dated: Nov 17, 2008

Perry Baromedical Corporation, a leading manufacturer of Hyperbaric Oxygen Chambers, announced today that Glenn Dennis has accepted the position of President and Chief Operating Officer.

Perry Baromedical Corporation, a leading manufacturer of Hyperbaric Oxygen Chambers, announced today that Glenn Dennis has accepted the position of President and Chief Operating Officer.

Kerrigan Turner, CEO and Chairman of Perry Baromedical stated, “We are poised to enter one of the most exciting times in our history. As an accomplished experienced leader Glenn brings a high energy interactive management style that provides the type of leadership that we have been looking for. His vision and experience in building high performing healthcare technology organizations will be invaluable as we evolve in the future with new products for wound care and other markets”.

Glenn said, “I couldn’t be more excited about joining Perry at this time. I look forward to working hand in hand with the team at Perry in creating an exciting go to market strategy that will differentiate us from our competitors by delivering leading technology solutions that are unequalled in value and performance”.

Glenn’s career spans 22 years, prior to this position Glenn was the CEO at DataLoom Solutions, a healthcare based Business Intelligence technology firm; President of Exigent, a publicly traded technology company that was sold to Harris Corporation; Chief Operating Officer at SoftMed Systems, a hospital software technology company where Glenn increased revenues from 25M to 55M; General Manager of GE’s Information Technology Solutions increased revenue from 25M to over 125M. Glenn has earned a BS at TCU University and continuing education at University of Maryland and SCSU.

Perry Baromedical is a world leader in Hyperbaric Oxygen Technology

For over 40 years Perry Baromedical has been in the forefront of Hyperbaric Oxygen Technology. Perry is the only company worldwide to engineer, manufacture, install and service monoplace, dualplace and multiplace units. Perry prides itself on being the only company with a full line of monoplace Hyperbaric Chambers available in the industry. Starting with the Sigma 34, following with the “second largest” in the industry the Sigma 36, and the “largest in the industry” the Sigma 40. Over 5 million treatment hours have been safely performed in the Perry SIGMA series of hyperbaric oxygen systems worldwide. To meet the increasing demands for Perry’s existing products and exciting new product line we have relocated into a new state of the art manufacturing facility.
