

Multimedia Design for Dallas from Write Ink Marketing

By Natalie Revell, eMarketing Director of WIM

Dated: Nov 23, 2008

Multimedia Design for the Dallas and Rockwall, TX areas is just one more innovative marketing service being offered from Write Ink Marketing.

Multimedia Design is a much-needed advertising & marketing tool for any business of any size. Write Ink Marketing now opens its doors even wider by now offering this excellent service to get and keep you in front of your customers.

Multimedia design is the business of creative story-telling. Write Ink Marketing constructs integrated marketing multimedia design presentations and product development strategies into cohesive advertising and marketing solutions that utilize the latest technologies in 3D, interactive multimedia design, online media, and print media.

Fact:

Websites that include multimedia design capture audiences' attention longer and more effectively than just text alone.

For more information on our multimedia design services, please visit:

<http://www.writeinkmarketing.com/multimedia-design.php>

Multimedia design stimulates more senses than just sight by incorporating sound and in some cases touch by including an interactive element. It entertains, which makes your viewers stick around longer because they are enjoying themselves. The longer they stick around, the more they learn about your business, and the more likely they are to act on the call to action you are seeking from them.

From a unique logo design to a basic web design to a HTML website design to a Flash website design to a fully integrated multimedia design, Write Ink Marketing can successfully assist with your corporate identity branding.

Multimedia designs include:

- Multimedia Presentations
- Interactive Presentations
- Video Presentations
- CD Presentations
- Corporate Presentations
- Power Point Presentations
- ...and much more

Multimedia design can be used for various advertising & marketing techniques. Why not add a link to your online video at the bottom of your email signature and have others virally share it across the web? You can also use multimedia design to feature in your website design, for direct email campaigns, trade shows, fundraisers, sales visits, to be presented in your office lobby, to be displayed in kiosks, online banner advertisements, TV & cable advertisements, and much more.

Multimedia design can be a very effective factor in corporate identity branding. Write Ink Marketing can develop a very valuable platform for you to assist in getting your message out in an unforgettable manner while entertaining your target audience at the same time.

In addition to our other web services such as web design, copywriting, SEO services, and more, Write Ink Marketing has now stepped up to be able to offer full-service web and marketing strategies by also offering multimedia design.
