- Email verification upon registration
- Password retrieval system
- and much more....!

All the features can be control/monitor easily with the back end user friendly admin control panel i created.

My script can be run on any server running PHP/MYSQL

i will provide support after your purchase.. i will setup the script on your hosting for free, will design a logo for you for free, will integrate that logo with my script for free, i will also be open for additional features and customizations, but will need reasonable additional payment for my those extra efforts.. i have provided

the list of all features so that you can have a look.. i have provided full functional demo with admin panel, so that you can test with your entire satisfaction before your purchase..

Full source code will be provided and there is no any encryption in the code. You can pay via western union or bankwire or moneygram. After i will get the payment, download link will be provided to you within 24 hours. Or i can also setup or install the script on your server for free, there is no any installation charges. Script installation will be completely free..

many thanks and kind regards,

Nadir Ali Shah
