Check Full details at the given link. Barcode Inventory Control, Accounting and Business Management Software We have Integrated Financial Accounting software with barcode for following user segments:

Business Houses * organizations * Traders, Dealers, Distributors or Stockists of Goods, Consumer Items, Pharmaceuticals * Wholesalers * Large Retailers * Medical Suppliers * Industries * Manufacturing Units * Automobile Dealers * Vehicle Service Stations * Garages * Petrol Pumps * Hotels, Guest Houses, Motels * Hospitals, Nursing Homes, Pathological Labs, X-Ray Labs * Newspapers, Magazine, Periodical Publishers * Commodity Brokers

Our software have features specific to the requirements of above user segments . HiTech offers the simplest, easiest-to-use manufacturing Bar code solutions in the industry. We offer a wide selection of quality products for creating, printing, and using bar codes. The use of bar coding in manufacturing is

growing significantly. Bar codes provide fast, easy, and accurate method of data entry. The correct use of Bar codes decreases employee time required and increase an organization's efficiency.

Accurate inventory control is critical for any manufacturing company. Your enterprise needs to track receipts of goods, the movement of goods within or between locations, the sale, removal or other disposition of goods, and the precise valuation and status of goods remaining in inventory at any point in time down to the Location status, Color, Size, Style, Lot Numbers, Serial Numbers and Expiration Dates remaining in stock.

Apart from inventory bar coding is also implemented in transaction module. All transaction have unique bar code ID. Apart from that barcode is also used for identifying the customers, supplier and account heads. You can print the barcode labels from any module of the software using your laser or inkjet printers. No special barcode printers or fonts are required.

HiTech Accounting and Inventory Software is designed to provide you with accurate information on all aspects of your inventory and ensure you have the software tools to manage and control your inventory in the most cost-effective manner possible.
