

Professional 'The Straightener' Digital Ceramic Hair Straightener

By Bosco

Dated: Nov 28, 2008

At Actfind we are huge fans of Ceramic styling tools and offer professional Ceramic Curling Irons at low prices.

Introducing... The all new Digital Ceramic Hair Straightener from Actfind! This Hair Straightener has been designed supersede all other straighteners, boasting a whopping high heat 200c titanium plates with advanced ceramics and ionic conditioning Keeping your hair ultra shiny and silky smooth.

The Straightener boasts all new straightening technology with an Active ionic conditioning system with true Ionic Generator! Which emits negative ions that seal the hairs natural moisture in keeping your hair healthy and shiny...

Actfind have also fitted this straightener with a digital power and temperature control so you can accurately (from 180°C - 200°C) and safely set the temperature to your hair type whether your hair is naturally thin or coarse thick hair, Giving you Advanced results over all other Top Branded Straighteners.

The new Digital Ceramic Hair Straightener is a completely new model compared to its earlier predecessor. The new Digital Ceramic Hair Straightener now use titanium in their plates, digital temperature control and display plus a comfortable design to make styling easier. Some of the advantages in using titanium are greater heat resistance, ease of cleaning, smooth surface, non stick performance and the plates are very durable.

The new Digital Ceramic Hair Straightener have many improved features. The use of Titanium within the plates makes them extremely heat resistant, easy to clean, chemical resistant, non stick and are extra smooth. Generating a high amount of negative ions this straightener will help seal the cuticle, lock in color and ensure the least possible damage to your hair shaft. Natural movement of the hair causes a positive ionic charge which opens the hair cuticle and makes the hair frizzy and flyaway. The negatively charged molecules generated by the Digital Ceramic Hair Straightener smooth and relaxes the hair by canceling out static electricity.

For more information, please come to Actfind.com and check the product of new Digital Ceramic Hair Straightener.
