

DRYPro® offers completely waterproof Ostomy Protectors! Be able to take shower, bath, go to Beach!

By Brittany Brown, DryCorp LLC

Dated: Dec 04, 2008

The DRYPro® is the only ostomy and stoma protector watertight vacuum seal! The DRYPro® fits snug yet comfortable during a shower, a bath and even an active swim!

Simple to Use! DRYPro® is the only ostomy protector with the watertight vacuum seal. The DRYPro® fits snug yet comfortable during a shower, a bath and even an active swim. Our patented vacuum sealed product can't come off; you can't even pull it off! The DRYPro® is made of durable high quality surgical latex. Jump in the pool! Play in the waves at the beach! Shower or bathe repeatedly with ease!

Quality of life, the DRYPro® Waterproof Ostomy Protector is guaranteed for a year. After having put on the ostomy protector, the pump sucks out the air so that the ostomy protector cannot come off and more importantly: the ostomy pouch stays completely dry and secure. Taking a quick shower, a relaxing bath or even a refreshing swim is no longer a problem. The DRYPro® for ostomy is highly durable and also re-usable.

Here what other's have to say about the DRYPro® Ostomy Protector-

'I recently purchased one of the Dry Pro appliances and I would like to thank you very much for creating such a wonderful product. I have been recovering from a serious injury resulting from a vehicle accident for some time now and part of my therapy is water exercises. Without this product, I would have to change my appliance three times a week, resulting in irritation around my stoma. The financial burden of so many changes has also been relieved. I have passed on your e-mail address to our local pharmacist and will also pass it on to a store in Penticton that specializes in supplies for ostomy patients.
