You and your children can count down the days till Christmas with Cullen's Abc's (CullensAbcs.com) daily online video advent calendar.

You and your children can count down the days till Christmas with Cullen's Abc's (<http://www.cullensabcs.com/>) daily online Christmas Advent Calendar Video Series. The series starts with a video for December 1, and continues with a video for each day to December 24. These fun, and very interactive videos are free and can be watched at http://www.youtube.com/view_play_list?p=C8A70D3F5E23E911

Cullen Wood, founder of Cullen's Abc's, and her puppet, Gator, open one new window each day from two different advent calendars (Peanuts and Lego). The Peanuts calendar provides fun activities, including: giving a toy to charity, going Christmas caroling around the neighborhood, and visiting someone to spread Christmas cheer. The Lego calendar connects a Lego person or object to a role in a city or town. Through the Lego calendar, children learn about the different responsibilities all people have in life and the important roles that they play. Past videos for both calendars are archived, so if you have missed a day you can go back and watch it.

"Children love advent calendars; they are a wonderful daily activity for a family or group." states Cullen Wood, founder of Cullen's Abc's. "These interactive videos offer a different approach to advent calendars. Instead of a treat behind the window, children learn fun, educational, and engaging activities."

Cullen's Abc's is pioneering the use of online video to distribute free, children's videos that are entertaining and educational, and activity idea videos for adults. All videos and activity ideas stimulate young children's development at home and in the classroom. Cullen's Abc's has produced hundreds of videos for young children and adults that have been viewed millions of times. DVDs are available at the CullensAbcs.com website.
