

Beach House Software Releases Coloring Book for iPhone and iPod Touch

By Beach House Software, LLC

Dated: Dec 09, 2008

Beach House Software has released the Coloring Book application for the iPhone and iPod Touch. The Coloring Application allows kids of all ages to color one of 12 fun coloring pages with just a touch of their finger.

Beach House Software has released the Coloring Book application for the iPhone and iPod Touch. Now at Version 1.1, the Coloring Application allows kids of all ages to color one of 12 fun coloring pages with just a touch of their finger.

Give a coloring book and a pack of crayons to a kid, or even an adult, and they can entertain themselves for hours.

Now you can keep a coloring book in your pocket! You can color with your fingers, select from twenty-four different crayons, zoom in for fine details, and save the results to your photo album.

The "point and fill" coloring method is easy to use. Select a crayon with your finger and click a region of the picture to color. The region automatically fills in. Even very young children can use it and it provides hours of enjoyment.

When you are done, you can save the photo and email it out or store it on your computer.

Coloring Book is available now at a special introductory price of only \$.99 and can be found at the iTunes App Store at this link: <http://itunes.apple.com/WebObjects/MZStore.woa/wa/viewSoftware?id=297952833&mt=8>.

Features:

- Simple, intuitive controls
- Twelve fun coloring pages
- Twenty-Four different colors
- Pan/Zoom
- Save colored pictures to the photo album
