

## **Mendelson Consulting chosen as a “Technology Pacesetter” by Accounting Technology Magazine**

*By Cristina Nowogrodzki*

*Dated: Dec 12, 2008*

*Mendelson Consulting recognized as a Technology Pacesetter, a distinction given to selected influencers and leaders in the accounting software community.*

The editors of Accounting Technology are pleased to announce that Mendelson Consulting has been chosen as a “Technology Pacesetter” for 2008.

The magazine gives this award each year to 100 organizations that market financial midmarket applications.

“Pacesetters are selected for a wide range of criteria, such as substantial growth, their leaderships’ influence and involvement in the accounting software community, and recognition from the companies whose software they market,” said Robert Scott, editor of Accounting Technology. “All of these factors help us recognize quality businesses, regardless of size.”

Most companies in the accounting software channel market a wide range of technology software and services. However, financial software remains the focus of their operations. “We’re proud to be mentioned among the top technology providers, a testament to our commitment as a value-added-reseller organization,” said Mario Nowogrodzki, CPA.CITP, principal of Mendelson Consulting.

The names of the selected organizations were published in the December 2008 issue of Accounting Technology and can be accessed at [www.accountingtechnology.com](http://www.accountingtechnology.com).

###
