

Top Cash Gifting Activity Will Have You Thanking Your Boss For Handing You The Pink Slip

By Phil Henderson

Dated: Dec 17, 2008

Phil Henderson, also known as the Cash Gifting King, created not just a lifestyle for he and his family, but a real life.

Each time we turn on the news or read a paper, there is more and more bad news about the US Job market. But have you also thought about this? In hard times, for those lucky enough to find a job after being laid off, will it pay as much as the previous job?

You can't get fired or laid off if you work for yourself. Starting a business from home is the cheapest way to create income. You can work from home a few hours a week and earn a small income or you can work full time and earn a living.

When Henderson first cut his teeth in home based business, he chose Network Marketing as his vehicle and has this to say,

"Well, it wasn't really that "great" of a lifestyle at all, not to mention the long days, alienating my friends and family, and running myself into the ground trying to convince and sell people something they may or may not want to buy."

Then Henderson turned to Cash Gifting. Gaining steadily in popularity, cash gifting is different from a traditional home business in several ways.

There is no company to answer to. The People's Program <http://www.cashgiftingking.tv>, is a group of people helping each other in a structured way by giving gifts of money to each other. There are no products to buy and sell to others. You simply invite people to join and they in turn give a cash gift to the inviter.

"To me, cash gifting is the most natural, human activity one could ever experience... giving and sharing abundance." said Henderson, now known throughout the US and the UK as "The Cash Gifting King. <http://www.squidoo.com/the-cash-gifting-king>

"I can't say I know of any other activity that has such a positive effect for everyone who gets involved. With cash gifting, and what I've experienced myself is that lives are changed almost overnight. People who were previously struggling just to pay bills are now realizing compelling futures for themselves, got their family, and for the people they introduce."

Currently Henderson and his team are setting the stage worldwide with the architecture of their training system. The marketing tools supplied and the community gifting philosophy they stand behind has allowed them to absorb entire "Gifting" organizations because of their group culture, marketing strength and integrity.

"I look forward to the opportunity of walking beside you on your journey towards your new prosperous life." said Henderson
