*This is another highly profitable market and is how I first made my first buck on the net. The simple truth is that the vast majority of us constantly worry about our health and weight and as a result the market is huge!*

You can either create your own 'ebook' as I did, create an informational website and make money off 'Google Adsense' or promote other peoples products as an affiliate. Again, there are plenty of products to choose from at Clickbank.com.

The best time of year to promote dieting products:

If you do decide to promote health and dieting products, I would advise you to do the majority of you marketing at times when people most look for this type of product...for example... after Easter, Christmas and just before the summer in June. You will achieve higher conversions and make more of a profit if you do.

Please note: It is not necessary to be an expert in this, or indeed any field to write an ebook or informational product. In the next chapter I will tell you how to write and publish your own book on any subject, even if you have no previous knowledge or expertise whatsoever.
