

Banner Stands Business Awarded Environmental Award by CBEN

By Cypher Digital Imaging Ltd

Dated: Dec 22, 2008

Cypher Digital Imaging Ltd is pleased to announce the achievement of being awarded a Cumbria Business Environment Network Bronze Environmental Award.

Cypher has received this award as it has demonstrated the following:

1. An awareness of the importance of major environmental issues involved in business operations.
2. A commitment to improved environmental performance through the development of an Environmental Management System (EMS).
3. An organisational structure for the management environmental issues.
4. The presence of an Environmental Policy.
5. Have carried out an Initial Review of all Environmental Aspects/Impacts associated with the organisation including the use of utilities and resources and the production of solid wastes, effluents and emissions.

CBEN provide an awards system in grades of bronze, silver and gold. They send out an environmental consultant who assesses what the environmental practices are at present and then they develop an Environment Management System (EMS). This is then adhered to and shows the commitment that business has to the environment.

The Directors of Cypher Digital Imaging Ltd (<http://www.cypherdigital.co.uk>) recognise their responsibility and the importance of minimising the environmental impact of the company's activities, products and services.

Their primary services are printing, banner stands, exhibition stands, display systems, design and website production and their printing services are primarily digital and as such do not use printing plates or any chemicals. Paper wastage is minimal as the make ready process is usually only a few sheets, unlike conventional print. They advise clients on the benefits of printing only what is required with print on-demand. Where conventional print is used there is an aim for the majority to be FSC* approved.

Cypher are dealers for the Ultima, Plex, Core Display, Flex and Linx ranges, amongst others, of exhibition stands, banner stands and display systems and carry stocks of the more popular systems for fast delivery, as well as having a selection of systems on view in our showroom. We offer wide range of accessories for banner stands, exhibition stands and display systems, including wire and rod display systems.

For more information, prices and to view their full environmental policy, go to <http://www.cypherdigital.co.uk> .
