Social publishing site GoHoster.com announced today the ability for users of Facebook.com to interact with the GoHoster publishing community through JS-Kit's cross-platform commenting widget.

Starting on Dec 26th GoHoster will embed the JS-Kit commenting widget by default on all new pages published by its community.

GoHoster is a free online tool that makes it easy for anyone to create and publish useful, attractive web pages in just minutes.

"First We enabled the ability to share pages with facebook.com through the soacailtwist tell-a-friend widget" said Brian Fowler founder of GoHoster.com "Now the second phase is to allow Facebook.com users to provide feedback through comments using their Facebook ID" continued Mr. Fowler.

GoHoster is still in an early testing phase. If you're interested in taking it for a test drive, visit <http://www.gohoster.com> and create an account.
