Only minor changes are in store for the 2009 Mercedes-Benz C-Class. Front seat-mounted pelvic airbags have been added to all models, and the optional hard drive-based navigation system now offers 40GB of storage space as well as Zagat restaurant information. Driver side memory settings with a power steering column and a tilt-down reverse passenger mirror are now standard on the C350 (and optional on other models as part of a package). In addition, Sport sedans get a newly designed instrument cluster. The 2009 Mercedes-Benz C-Class has many key attributes that make it a competitive, entry-level luxury performance sedan -- the C63 AMG in particular offers power and torque unmatched by its competitors. However, in certain aspects, the C-Class misses the mark.
