Happy New Year to all!

As we bring in 2009, let us start the new year off right and "Celebrate and dance for free"!

With 'Let Loose' having just been named as one of the top 100 tracks of the year in Ukraine, Russia, Greece, Toronto, and elsewhere, and 'Roll Wit It' promising to be a major force on charts in 2009 with support from Roger Sanchez, Laurent Wolf, Stonebridge, Axwell, Fedde Le Grande and Matt Darey -- to name a few -- North America's Top Producer of Vocal House, Marc Mysterio teams up with French Electro Superstar and Radio FG Underground Resident Teo Moss, bring us a re-make of the Daft Punk classic "ONE MORE TIME"!!!

Vocals by fellow Canadian Yardi Don (aka Craig Smart) -- the top male vocalist in dance music -- "Summerjam", "Candy On The Dancefloor", and "One Love World Love" fame on vocals...

The song is available for free download on Marc Mysterio's Myspace page at www.myspace.com/mcmysterio

"I always loved this song, and it -- as well as DAFT PUNK, the original artist(s) -- influenced both Teo and I, given our french backgrounds (Marc of Montréal and Téo of Paris), in our careers. However, with the standard bpm in dance music now being between 128 to 130, it made mixing the original very difficult given its bpm of 122. It just didn't sound right. I always thought that if Bob Sinclar did a rmx of One More Time, like a World Hold On sorta vibe, it would rock. Having done various remixes for Chris (Bob Sinclar), I reached out to Téo to co-produce this track with me, since we were already working together on some other projects -- he immediatly agreed! Thereafter, while on tour in Vancouver, I met Craig (Yardi Don), whom also loved the original song and shared our collective passion to re-make this classic with a 2009 feel to it. Although, I am not generally a fan of re-makes (since they usually fail to live up to the original and the vocals are generally pretty weak on them, not to mention that they are made by unknown vultures looking for attention rather than for the love of the original), I felt totally confident in putting my name on this project given our individual accomplishments. We all did this project for fun and that is something that you do not get the opportunity to do in the music business often. Additionally, its not often that 3 reknowned and talented folks put egos aside to do a fun project. Hence, this is not a follow up track to our current singles, we are not putting together a one sheet, huge remix package, or an elaborate album cover -- its just a fun project that three great and talented guys -- from different continents -- put together for personal enjoyment!!! That said, we do have high expectations that it will chart well and, moreover, I trust that this version will live up to some of the other great re-interpretations out there, such as Smooth Criminal by Alien Ant Farm, etc... Our fans, Supportive Radio Jocks, Club DJs, and the rest of you should feel free to share our re-creation amongst all of your friends which gives meaning to the lyrics 'celebrate and dance for free' in 2009"

- Marc Mysterio on the production and re-interpretation of 'One More Time'.
