

First ECG program available for iPhone surges in popularity on the App Store

By QxMD Software Inc.

Dated: Jan 05, 2009

The first ECG program available for iPhone, "The ECG Guide", has surged in popularity, claiming the number 2 spot in the US App Store (Medical category).

As of Jan 4, 2009, "The ECG Guide" has claimed the number 2 spot for paid apps in the US iPhone App store (medical category) and the number 1 spot in the Canadian and UK versions.

Unsolicited reviews include:

"...this is a 5 star application."

"This is a must have application for doctors, residents and medical students."

"Thanks for a clean, accurate ECG guide for a fair price."

'The ECG Guide' is the first and foremost ECG/EKG reference and learning tool for the iPhone.
