Infinity 800 combined with the Bill Soriano and The Infinity 800 Club Members Website is an exciting work at home program that is making big money.

A Review by Bill Soriano: <http://myteamgalaxy.com/infinityclub>

At only \$260 one time start up cost, Infinity 800 is a big hit on the internet. This one time start up cost creates \$540 recurring commissions whenever a 2x2 matrix is completed, or what we call "cycled". and you will automatically be placed in a new matrix., so that you can cycle over and over again. Infinity 800's commissions are paid weekly, offering a "no-brainer" solution for many internet marketers looking for a program that converts well in this current economy.

The Infinity 800 Club Members website has created a system that works extremely well with Infinity 800's program. Bill Soriano states, "The leader of this team, Joey Kissimmee, has set up a fail-proof system to help even the newest and most inexperienced person to succeed, helping a tremendous amount of people to finally start making money online". It's pretty hard not to see the benefit of being involved with an opportunity that offers such a great return for so little up front capital, and a compensation plan that is so simple and encourages teamwork.

"I joined the Infinity 800 club members website team because I saw team leadership, team training and the entire team advertising as a unit.

The team has live webinar Q&A calls every week and when you join the team you will receive:

*Your very own replicated capture page, different from the company sponsored one

*Free 1 year subscription to Club Six Figures marketing school

*And you get a spot in the Infinity 800 Club Members Co-op your first month
