

Feel Great, yet Look Tired? Is It About Time to have your Eyelids tightened?

By Beautiful Beings

Dated: Jan 27, 2009

It is dreadful when you feel great yet your colleagues ask if you are tired. It maybe a sign that your sagging eyelids are giving out the wrong signal

Your eyes are one of the most important facial features. Surgery on the skin below the eyes can eliminate bags underneath the eyes.

Surgery on the upper eye area can improve the appearance of wrinkled skin on the eyelids giving a more youthful appearance.

Eyelid surgery is one of the most common procedures performed in the cosmetic surgery industry. It addresses changes around the eyes due to ageing. Eyelid surgery removes not only the excess skin but also the fat pro-lapses.

The price starts from £1111 for either upper or lower eyelids surgery - you can have the fat and excessive skin removed and look instantly younger and fresher.
