

DryPro® by DryCorp improves quality of life, reduces financial burden for individuals with ostomy

By DryCorp, LLC

Dated: Jan 29, 2009

With the DryPro® Ostomy Protector individuals with an ostomy can keep their ostomy secure and dry when showering, bathing, and even taking an active swim.

If you have an ostomy you know the area around the stoma can get irritated when you have to change your appliance numerous times. The DryPro® reduces the number of times you need to replace your ostomy as it safeguards your ostomy while you are showering, bathing, taking an active swim, or participating in water exercises for recovery therapy. Not only does changing your ostomy often cause irritation it is also a hassle and a financial burdern. The DryPro® Ostomy Protector is highly durable and reusable.

The DryPro® is the only ostomy protector with the watertight vacuum seal. It is made of durable high quality surgical latex and is guaranteed for a year. It can only come off when you want it, thus giving you peace of mind that your ostomy will be protected.

With the economy the way it is these days, lowering unnecessary costs is very helpful. With the DryPro® Ostomy Protector you can do just that. The DryPro® keeps your ostomy protected so you don't have to constantly change it, avoiding irritation and replacement costs.

For more information about the DryPro® Ostomy Protector visit the website: www.store.drycorp.com

Dry Corp manufactures and distributes waterproof body protection for casts, bandages, PICC line, prosthetic and Ostomy. Dry Pro works on a vacuum seal to keep the cast, bandage or Prosthesis completely dry while showering, bathing and even swimming.
