

Daughter Kari Colen MD Joins Cosmetic practice of her parents Helen Colen MD and Stephen Colen MD

Dr. Kari Colen completed Plastic Surgery training at NYU. She performs all the newest techniques in Cosmetic Surgery of face & body especially breast surgery. Great with Skin rejuvenation with lasers, labiaplasty, post weight loss skin reductions.

Feb. 10, 2009 - [PRLog](#) -- Dr. Kari Colen who newly completed her training in Plastic surgery at the famous NYU Medical Center joined her parents in the practice of Plastic Surgery on Park Ave. in New York. She performs the newest techniques of cosmetic surgery of the face, body and vaginal area. She does very natural rhinoplasties, eyelidplasties, facelifts, ear pinning, cheek and chin implants. She enjoys the new procedures in skin rejuvenation with lasers, microdermabrasion and fillers. She is an expert in breast reductions and lifts, augmentations with saline and silicone implants and a combination of lift and augmentation procedures. Like her parents she also performs breast reconstructions either after mastectomy or congenital malformations as well as tummytucks and vaginal tightening and labia reductions or reconstructions. She is an expert in all types of liposuction and skin reductions after massive weight loss. She performs all these procedures either at the hospital or in the AAAASF liscensed top private surgery suite at the office on 742 Park Ave. in New York. Kari Colen MD is also on the staff of Hackensack medical Center in NJ, Meimionides Medical Center in Brooklyn, and both Lenox Hill Hospital and NYEE Hospital in New York City. Dr. Stephen Colen, her father and now partner is associate professor of plastic Surgery at NYU Medical Center and also Chairman of the Plastic Surgery Department at Hackensack Medical Center. He is also on the staff of Lenox Hill Hospital and NYEE Hospital. Dr. Helen Colen, her mother is also clinical Associate Professor at NYU Medical Center Plastic Surgery Department as well as an attending at NYEE and Lenox Hill Hospital.

Any patient who undergoes cosmetic surgery at the ColenMD Plastic Surgery Suite has the full supervision of an MD at any time as there is always one of the Dr. Colens around.

All patients are seen twice before any surgery and have their procedures with an MD anesthesiologist delivering the proper anesthesia after it is discussed with the patient. Dr. Helen Colen, concentrates often on labiaplasty and vaginoplasty procedures, believing that these are necessary both for better sexual function and comfort. Pelvic health is of great interest for Drs. Helen and Kari Colen especially in women who had many children, underwent a great weight loss, had multiple episiotomies, are postmenopausal or have had treatment for Cancer. Many also have had congenitally enlarged labia which may interfere with exercise or any sexual activity. Often The doctors work with a gynecologist if more complicated vaginal surgery is needed or if the patient also has stress incontinence. These procedures can be done in conjunction with other plastic surgery procedures. These procedures are about one hour long and so easily can be combined with either breast or facial cosmetic surgery.

Colen MD has arrangements with nurses who take care of patients after surgery for a few days. These nurses are very familiar with plastic surgery procedures and have been working for Colen MD for many years. Many patients stay in hotels in the city following surgery especially if they are out of town or from another country.

Colen MD has international practice and many travel long distances to have surgery by any one of the doctors.

Practicing plastic surgery is lots of fun. Patients who undergo the procedures they elect are extremely happy and enjoy their life in the future. Many refer their friends and family and return in the future for other procedures as well. While practicing this field the doctors meet many interesting people and seeing the great results is very gratifying.

In this economic downturn, some patients may not elect to have very big surgeries as they do not want to take too much time from work, however they still come for fillers for the various wrinkles. Restylene, Radiesse and Juvederm are fillers of choice. Many elect to have the fraxel laser treatments as well as

microdermabrasion procedures. Some elect permanent fillers with alloderm. Many just come for the old fashion skin treatments with great creams appropriate for their conditions and skin type. I think that cosmetic surgery makes people happy and more confident and it is nice to see how much people enjoy looking better.

Dr. Kari Colen is very happy to finally practice the procedures for which she trained for so long. She spent long years at the NYU medical school, then training in general surgery and then in Plastic surgery all at the NYU and Bellevue medical center.

So come and visit the Colen MD Plastic Surgery Suite and you can discuss and choose any surgery you may be interested in. You can choose just skin treatments or you may just come for consultation. You can choose surgery by Dr. Kari Colen who is young, or by Dr. Helen Colen who is older or by Dr. Stephen Colen who is also older. You must remember that plastic surgery is not covered by insurance as it is considered a luxury treatment. However, experiencing luxury is good and fun sometimes. You can look up the Suite on line at www.colenmd.com. and see the faces of the people who work there.

It is a Plastic Surgery Suite where people practice the highest quality of surgery and the care is first rate. The doctors were often mentioned as the top doctors in many of the top national magazines in the US and Internationally. They were often mentioned in Town and Country, NY Magazine, Glamour, W, Wall Str. Journal, Vogue, Mary Claire, and JQ magazines. They are also listed in Top New York Doctors in Castle Connolly. Dr. Helen, Stephen and Kari Colen are also authors of many published articles in medical journals.

So if you think any cometic care, from surgery to skin treatments think Dr. ColenMD Plastic Surgery Suite in New York City. You will not be disappointed and will enjoy every minute you spend there.

###

About ColenMD Plastic Surgery Suite-top certified Surgery Suite where three members of the same family practice top plastic surgery procedures. There are two Female Plastic Surgeons who do surgery of face, nose, Eyes, ears, Cheek and chin implants, breast augmentations, lifts & reductions, abdominoplasty, liposuction, Labiaplasty, vaginoplasty, Botox, microdermabrasion, Skin Fillers, lasers, skin care, Post weight loss surgery, and sometimes combine with a gynecologist to deal with stress incontinence and vaginal tightening at same time. Surgery can also be performed in hospital if the patient chooses. Plastic surgery is done on both men and women patients and Dr. Stephen Colen is also available if a patient prefers a male plastic surgeon to perform their surgery. All patients must undergo medical examinations and blood tests by their internist and be healthy enough to undergo the surgery. Recovery is done at home or hotel under the supervision of experienced plastic surgery nurses.
