Why do we use horses?

Horses have a unique, intuitive capacity to mirror our energy and intention. Horses respond to our innermost voice rather than our 'public face'. The relationship of the horses and participants in the activities provides immediate feedback. This awareness reveals our incongruence and an opportunity for trials of creative problem solving.

###

Powerful Equine Assisted Learning Classes addressing continuing education credit for Ethics hours, Character Education grades 6-8, Business Roundup, a class designed to revitalize a living business plan with key players.
