

## **Daimer Industries Announces a New Vapor Steam Cleaner for Home and Commercial Use**

*By Daimer Industries, Inc*

*Dated: Feb 17, 2009*

*ISO Certified KleenJet® Pro Plus 200S Offers Cleaning Accessories and High Pressure and Temperature.*

WOBURN, MA - Daimer Industries, a leading manufacturer and distributor of commercial cleaning products, introduced the KleenJet® Pro Plus 200S, a vapor steam cleaner that features: ISO certification, high-performance, a variable pressure dial, and more than a dozen cleaning tools.

"This new addition to our line of KleenJet® steam cleaners is ideal for residential and commercial use," said Matthew Baratta, Daimer spokesman. "The Pro Plus 200S is economical and packed with features and extras."

### Speeds, Feeds and Features

For cleaning power, the KleenJet® Pro Plus 200S offers up to 75 psi of pressure and steam temperatures of up to 310° F. The unit has a four-liter, stainless steel boiler tank. The steam cleaner also includes a replaceable heating element technology, which means customers can have a single low-cost heating rod replaced instead of a costly boiler.

A variable pressure dial, which operates like a radio knob, lets users adjust the pressure, depending on the needs of the job. By contrast, many steam cleaners under 80 psi are limited to three settings, including a low setting that is often too light for most surfaces and a high setting, which is too high for the machine to maintain for more than a few minutes before pressure and temperature drop dramatically. As a result, users are left performing most jobs with the medium setting.

### Attachments and Extras

The Pro Plus 200S also includes a variety of attachments and tools, such as: a 10-foot detachable steam hose with heavy-duty towel clip, heavy duty extension rods, a steam squeegee for mirrors and windows, and an assortment of brushes.

Like Daimer's other KleenJet® steam cleaners(<http://www.daimer.com/steam-cleaners/>), the Pro Plus 200S is ISO certified, which means it is manufactured to the highest standards for reliability.
