

24 Hour Fitness Center Emergency Panic Alert Systems NOW Available !

By Assistive Technology Services

Dated: Feb 18, 2009

Provide your customers a way to call for help 24 hours a day in the event of an injury.

We offer a very inexpensive solution to this need that has been used at hundreds of Health Clubs around the nation.

Our alert system is totally wireless and has NO MONTHLY USAGE FEE.

Assistive Technology Services wants to help you be compliant with regulations and provide safety and security for your customers.

Recent liability laws in many states such as California also require that all health clubs and fitness centers install a Automatic External Defibrillator (AED) since June of 2007.

This is a serious liability situation and you should consult with your insurance agent for details.

Assistive Technology Services strives to provide economical solutions to these needs.

We Offer Wireless Pendants, Watches and Panic Buttons for use with the system.

Starting at only \$69.99
