

Best Home Based Business Tools for Online Marketing

By Published by Veretekk Gold Member, Ron Smalley

Dated: Feb 18, 2009

Veretekk affiliates own the best home based business tools used by thousands in online marketing.

Online marketers are looking for the best home business tools to get more leads and more "bang for the buck".

Online business people are not quitters. If they were, they would not be online marketers. Netpreneurship takes persistence as does any other business venture which will eventually become successful.

Over the past 12 years there is one system which has steadily grown by developing increasing value for marketers operating self owned, small home based businesses.

That one system is **Veretekk**. I do not know of any other system that is comparable.

The most current iteration of Veretekk is Veretekk Web 2.0 (I am just guessing what the final name choice will be). Due for release on Wednesday, September 1, 2009.

Instead of just messages and advertising it will include on, April 1, 2009, the ability to interact with other people all over the world using the tools of "social networking".

The basic concept, which has not changed for thousands of years, is that most of the time, most of the people will prefer to do business with other people who they like and trust. Everyone of us can back up that statement if we just stop and think about it.

I invite all home based business owners who want the best in online marketing tools and training to take a serious look at Veretekk. Start with a free look and then sign up for a Gold system in order to experience the full power and discover the secrets of online marketing with Veretekk Gold.

It begins with learning how to acquire free leads. Purchasing leads is strongly discouraged. The FreeFFAs tool is the back bone of this concept in conjunction with Veremail: the verified, spam free, email autoresponder tool.

In addition there are some free tools for prospects to explore - see Sohomatic for just one example.

Other tools such as the Vereconference Room require additional monthly expense but three-person rooms are free to use on a 24 hour basis. Advertising tools are available for free and may be upgraded in order to utilize them daily.

Free tools are available: Free-Page, Blog-father, and six other free tools are available.

Tom Prendergast, CEO and Mike Darling, President are comitted to creating a system the "little guy" will find best in developing his home based business.

See the links below for more information and to get started using the power of Veretekk.
