

## **Good Opportunities For Investors To Find A New Market !**

*By Stephane Dube*

*Dated: Feb 21, 2009*

*New invention! Automatic system to clean window which is going to revolutionize the way of speeding the work and especially in safety. Now you can look your windows clean every morning !*

Welcome To Window Washing System!

Idea !

Imagine your selves!

Sat(based) on your sofa and look your windows clean themselves .

Eh! Yes, only by pressing on your switch on / off or a remote control.

Whether it is for a building, a skyscraper, an airport, hotel, restaurant, a signboard(banner) of freeway and I pass some example...

We found a solution which reduces a considerable number of accidents, time(weather) and money.

I invented one automatic window-washing ; In 10 seconds your windows shine with cleanliness.

We are in search of investors or of serious partner.

How many computer per house?

And, How many windows per house?

I think that the answer is phenomenal.

We have a product which is going to revolutionize the business world window cleaning!
