

Dr. Neil Brenner to Speak on VoIP Solutions at Channel Partners Conference March 4 in Las Vegas

By Consolidated Technologies, Inc.

Dated: Feb 25, 2009

Dr. Neil Brenner, VP of Converged Services for Consolidated Technologies, Inc. to Speak on VoIP Solutions at the Channel Partners Conference and Expo in Las Vegas on March 4, 2009

Consolidated Technologies, Inc. (CTI), a New York-based converged technologies company, is pleased to announce the inclusion of Dr. Neil Brenner as a speaker at the upcoming Channel Partners Conference and Expo in Las Vegas, NV on Sunday, March 1st at 4:00. Mr. Brenner, who serves as CTI's VP of Converged Technologies, will be speaking on "Comparing VoIP Solutions: Premises, Hosted or Hybrid."

"There are many ways to arrive at the promises of VoIP (Voice over Internet Protocol)," said Dr. Brenner. "Whether it be an on-premises IP PBX (Internet Protocol private branch exchange) with traditional or SIP (Session Initiation Protocol) trunking or a Hosted Voice Solution or some combination thereof. Within each of those, there are many options from brand-name IP PBXs to open-source appliances on the CPE (Customer Premises-based Equipment) side to BYOB (Bring Your Own Bandwidth) and managed broadband offers on the Hosted side. At the Channel Partners Conference, I will be discussing the different options and how they compare in terms of cost, quality and complexity."

"As an agent," Brenner continued. "You can better serve both your customers and yourself by understanding the competitive landscape of CPE and Hosted solutions. By diversifying your portfolio, it may provide you with more credibility and opportunity in this very competitive marketplace."

The Channel Partners Conference & Expo is the only event devoted exclusively to The Channel — agents, VARs, systems integrators, interconnects, wireless dealers and consultants — selling communications products and services. The biannual trade show is celebrating its 11th year by achieving milestones in the variety and number of attendees, exhibitors and sponsors. The Channel Partners Conference & Expo is a one-of-a-kind networking and educational event that is earning praise from carriers, resellers, manufacturers, managed services providers, software vendors and their indirect sales partners. This year's show will take place on March

Consolidated Technologies, Inc. (CTI) is the trusted Converged Voice Communications Solutions Provider in the NY Metro Area. CTI has been a premier provider of practical and effective communications solutions for medium to large businesses nationwide since 1997.
