Popular hair extensions online seller, Perfect Locks, offers straight, wavy and curly 100% Remy Indian human hair products to best serve their customers.

CONCORD, CA – Perfect Locks, a popular hair extensions online seller, recently announced that its 100% Remy Indian virgin human hair products are available in a variety of textures, giving its customers the most natural look and feel available. The firm's new wavy hand tied weft, straight skin weft, and curly pre-tipped hair extensions are both easy for customers to apply and maintain.

Specializing in providing the highest quality hair extension products at the most affordable prices online, Perfect Locks exclusively offers 100% virgin hair imported directly from India. Since the Indian hair has never been exposed to harmful chemicals or dyes, the cuticle remains undamaged and the hair is free from tangles, ensuring that it will not break down over time.

Perfect Locks has hand selected the finest Remy hair to provide the most natural match to a wide range of ethnicities, from Caucasian to African American. The firm offers an expansive collection of hair extension products, ranging from fast and easy clip on bangs to long lasting skin wefted hairpieces.

“Our Remy hair extensions are the finest hair products available online. Perfect Locks' seamless designs are not only natural looking and easy to wear, but they also do not damage our customers existing strands,” says Priyanka Swamy, founder of Perfect Locks (<http://www.perfectlocks.com>).

Perfect Locks' new wavy hand tied weft features a beautiful, natural wave, but can also easily be worn straight or curly with the use of a styling tool. The naturally looking pieces are created from a single drawn unprocessed Indian hair carefully hand tied into three thread micro wefts. For easy application, the wefts have been conveniently pre-cut into five strips and simply attach to existing hair by sewing them into a tiny braid against the scalp.

The straight skin wefts available from Perfect Locks are ideal for adding length or fullness to existing hair. By laying flat against the scalp, the straight skin wefts are completely seamless and are easily applied with hair glue. Each straight skin weft is 15” wide, with a ½” PU base, and are a silky, natural off-black color.

For added versatility, Perfect Locks also offers curly pre-tipped hair extensions, which are perfect for strand-by-strand applications. The pre-bonded strands are constructed from high quality Italian keratin and can easily be applied with an extension iron. Each pack of curly pre-tipped hair extensions is approximately one ounce, or 25 strands.

“Perfect Locks is thrilled to offer such a wide variety of premium quality hair extension products for our customers to enjoy. From curly, straight to everything in between, our affordable extensions are a fun and easy way to completely transform your look,” says Swamy.

###
