Students should remember to purchase travel insurance if they are traveling during Spring Break this year. Both medical and evacuation expenses and trip cancellation costs can cripple a student's finances if travel insurance is not purchased.

TFG Global Travel Insurance.com offers travel insurance to students around the world through:

David Tompkins, President of TFG Global Insurance Solutions Ltd. and owner of Global Travel Insurance.com, stated that "Spring break is one of the most coveted times for students in Canada and the United States. Many students look forward to some well deserved relaxation and of course some parties, but failing to purchase travel insurance for Spring Break can leave students and their parents financial exposed. A medical emergency while traveling abroad can lead to many thousands in medical bills, especially if an evacuation back to the USA or Canada is required. It makes sense to purchase travel insurance online from one of our web sites, especially since the cost for a young person is easily within anyone's budget."

Students should also be aware that they can purchase trip cancellation and interruption insurance to cover their trop costs should they become too sick to travel or for some other insured reason such as inclement weather. Trip cancellation policies sold via:

offer students peace of mind that their travel investment will be covered if they can't go on their trip or if their travels are interrupted by a medical emergency.

So before you go on a Spring Break holiday this year, make sure you purchase adequate travel insurance. Also, remember that alcohol and drug use will invalidate your coverage for most travel insurance policies if you suffer an injury or sickness that is related to consuming drugs or alcohol.

TFG Global Travel Insurance.com is proud to offer a wide array of travel insurance plans to students around the world.
