

L'Amore Laser & Med Spa is Monmouth County's premier spa destination. Botox, Juvederm & Restylane

Conveniently located on Route 9 in Manalapan, L'Amore offers a wide range of spa treatments, skin injectables and fillers, cosmetic services, laser hair and vein removal and much more.

March 5, 2009 - [PRLog](#) -- Providing the highest quality in medical aesthetic services & patient care in a comfortable, relaxing medical spa environment. Treatments are tailored to your precise needs to achieve the best results possible. At L'Amore Laser & Medical Spa, safety & confidentiality is of greatest importance to us.

Our services include but are not limited to:

Sclerotherapy

Sclerotherapy is a non-surgical procedure that treats varicose veins & "spider veins." It has been used for over 150 years. A small amount of sclerosing agent is injected into the vein, leading to fibrosis & gradual disappearance in four to six weeks.

Laser Vein Treatment

In the past, leg vein treatment was a very painful process. Today this problem can be solved very quickly by using virtually painless beams of light. Laser light penetrates the skin, raising the temperature of the blood vessel & safely coagulating it without affecting the surrounding tissue. Treated veins gradually shrink & become less visible or disappear all together.

Radiesse

Radiesse is a safe FDA approved next generation corrective filler to restore facial volume, as well as correct smile lines & wrinkles around the nose & mouth. It stimulates your body to make new collagen & may last a year or more in patients.

Laser 360

If you are not ready for a full face-lift & you're no longer satisfied with the results of topical creams & lotions, Laser 360 is the perfect alternative. Laser 360 is ideal for anyone who would like to revitalize their look without invasive procedures or injections. You no longer have to accept fine lines & wrinkles or skin discoloration as an inevitable part of the aging process.

Photofacial Treatments/IPL

Rejuvenating Intense Pulsed Light treatment delivers visible improvements in facial redness, flushing & Rosacea while helping reverse the signs of sun damage & aging. IPL is absorbed by the target areas, without damaging healthy skin. It requires no down-time & can be used to treat many types of vascular & pigmented lesions quickly & painlessly

Fractional Laser Skin Resurfacing

Skin resurfacing improves skin texture & tone, smoothes wrinkles & diminishes brown spots. This procedure erases those factors that add years to our appearance, restoring youthful vitality. The laser pulses create tiny ablative zones, removing the epidermis & upper dermis. The treatment then triggers the body's natural healing process, stimulating the growth of new healthy skin tissue.

Skin Rejuvenation Peels

Reveals smoother & brighter skin. We offer glycolic acid, lactic acid & salicylic acid peels, depending upon your skin's particular needs. Chemical peels create a controlled exfoliation of several layers of damaged skin cells. The process exposes a fresh layer of skin improving skin tone & texture in addition to removing old, weathered & damaged skin cells. It stimulates the growth of new healthy cells, thereby tightening the skin & minimizing wrinkles

Our clients say it best. Here is what they have to say:

By ElizabethRN from Freehold,NJ:

"I came for botox, IPL & laser skin resurfacing treatment. I find the spa very clean with a relaxing ambiance. I felt at home as I was given a warm reception by the staff. It was easy to establish rapport with Dr. Lacap as she took time answering my questions & explaining the procedures I needed without giving me the typical sales talk. Very professional approach. After the series of facial treatment I recieved, the improvement on my skin was remarkably noticeable, from smoother texture & my sunspots totally gone! I don't wear as much makeup anymore! The mesotherapy treatment I had was painless, just felt like a massage with absolutely no downtime. I am bikini-ready for summer! I am quite happy with the results, I'm definitely coming back! I'd say it was the ultimate spa service!"

By Ester from New Jersey:

"I underwent laser skin rejuvenation and botox cosmetics for wrinkles as I'm already 71 yr. old. I found the service good, procedure was painless, very customer friendly staff, and the outcome is great, in fact beyond my expectation and at very reasonable price. I will definitely go back to L'Amore laser and med spa to try the other services they offer. I highly recommend this spa."

By Susun from Beachwood, NJ

"I recently won gift certificates to SpaFinder and immediately thought this was finally the time to take care of the annoying dark age/sun spots on my face (I'm 64 years young but did not always use sun screen) - they were beginning to annoy me more each day as I looked in the mirror. After reading the favorable reviews under The L'Amore Laser & Med Spa, I made an appointment and have never regretted my decision. From my very first visit (I have had three so far) I was not disappointed. There are not enough accolades to describe my experience with the L'Amore Spa - from the soothing ambience of decor to the always pleasant, courteous and helpful assistant to Dr. Estela LaCap herself. I have visited three times to date and each time I was impressed with the care I received - Dr. Estela LaCap went beyond standard procedures with each treatment/appointment. Never did I feel afraid, apprehensive (well maybe the first visit!) or any discomfort - she always explained at each level what I should expect before proceeding with the treatment and always taking precautions to make sure I was not in discomfort - this also included knee and neck supports as you need to be in a prone position and on my last visit, a blanket because it was such a chilly day and thought this would help make me feel more comfortable!

I'm happy to report my aging dark spots are practically a thing of the past - what a difference - no more cover stick!!

A friend at work noticed the difference and asked what I was doing to my skin and after explaining to her the procedure I had done and other procedures available, she now has an appointment with Dr. LaCap for some pampering too. I am so pleased with the L'Amore Laser & Med Spa that I don't even mind the 50-60 minute drive from my home.

Please take the "plunge" and visit L'Amore Spa. They do live up to the words of praise I tried to convey here - you won't be disappointed, I wasn't."

By HeatherT from New Jersey

"I underwent laser light therapy to remove sun spots and discoloration on my face. After 3 visits, the results were amazing! The staff is both professional and sincere and I would highly recommend their services!"
