

## **The Importance of Fathers in their Children's Lives Today Cannot Be Denied**

*By WiseAdviceBooks*

*Dated: Mar 16, 2009*

*WiseAdviceBooks launches a newly released book in the WiseAdviceBooks Series: Father Power: How Dads Shape Their Children's Life written by Joanne B. Parrotta.*

Mothers are no longer the primary determining influence— the importance of fathers in their children's lives today cannot be denied.

Increasing awareness of the needs of new fathers has resulted in research that tells us that the father-child bond is just as important as the mother-child bond. In Father Power Joanne B. Parrotta gives practical ideas and inspiration for fathers and provides specific direction for helping their children grow into loving, confident, caring adults.

In this very informative 65 page booklet Parrotta stresses the significance of

- The father-daughter bond
- Why discipline is a must
- Honoring your child's mother

Father Power is a celebration of the important role fathers play in their children's lives. It is the author's desire through this little book to help fathers discover what makes a great dad and show them just how needed and powerful they really are in their children's lives.

Father Power will not only guide father's in becoming great parents but – just as important – it will also guide them in becoming great husbands/partner to their children's mother. All fathers and father figures stand to benefit from this useful little book.

This book is available for sale at: <http://www.wiseadvicebooks.com> and <http://www.amazon.com> and is priced at just \$14.95 US.

Review copies are available to the media upon request.
