*Modern Strategies Inc. and Modern Tutoring Services have united to create a state of the art video tutorial designed primarily for Adobe Photoshop CS3 but also relevant for CS2, CS and 7 versions.*

In response to the large demand for training resources and support concerning Adobe Photoshop CS3, Modern Strategies Inc. and Modern Tutoring Services have joined together to create a state of the art video tutorial.

It is from their “Tutorials Made Easy” brand and is called the “Adobe Photoshop Made Easy” video tutorial series. This is one of the most comprehensive and easy to understand tutorials available today. It contains over 100 lessons and includes all the major topics of Adobe Photoshop that are actually taught in colleges.

A sample video of this tutorial can be found at: <http://adobe-photoshop-tutorial.webs.com>.

The tutorial consists of 16 topics and each topic is covered on a separate video. The videos were made in an easy, step-by-step fashion, with an instructor who uses the Adobe Photoshop CS3 interface in live video action. The video instruction platform is quite new and much easier to understand than the more standard versions presently available.

Topics that are covered in this video tutorial:

- Getting Acquainted with Photoshop
- Image Manipulation Basics
- Color Basics
- Painting Tools
- Brush Settings
- Making Selections
- Filling and Stroking
- Layers
- Advanced Layers
- Text
- Drawing
- Using Channels and Masking
- Manipulating Images
- Saving Images
- Printing
- Automating Tasks

One can just sit back and follow the instructor as he simplifies each tool and action in Photoshop CS3 – right before their eyes.

John Tiniakos, president of Modern Strategies Inc. says, “We are very proud of this project simply because it fills a huge need... we were able to provide an easy-to-understand solution for Photoshop CS3 at a very affordable price (\$24.95). We have distributed several pre-release versions of this product and have received excellent feedback”.
