

Global Leader of Outsourcing Online Bookkeeping services

By John Iron

Dated: Apr 16, 2009

Outsourcing bookkeeping services is the global services provider for online bookkeeping and accounting services. To gain competitive advantages over the business, we are providing the unique online and offline bookkeeping services.

Outsourcing bookkeeping services has been the trend among business almost anywhere around the globe. And so there are a lot of companies and individuals offering their hand in bookkeeping. Companies have often taken many of these offers because they have seen the benefits it does bring to a company. Many companies have realized greater company profits and company growth by employing the strategy of outsourcing their bookkeeping.

OBS – the full-charge bookkeeper handles all your daily bookkeeping needs: invoices and statements, accounts payable, cash receipts and disbursements, payroll, bank reconciliations and recurring reports.

Here are some benefits for Outsourcing Bookkeeping services:

- Outsourcing is cost effective
- Outsourcing reduces your year-end work and fees

Business Bookkeeping Software we work with

QuickBooks is the leader in bookkeeping software with about 75% market share among small businesses in USA. We support ALL versions of QuickBooks for outsourced bookkeeping including QuickBooks Online, QuickBooks Pro, QuickBooks Premier and QuickBooks Enterprise. QuickBooks is also available as "software as a service", called QuickBooks Online which is well-suited for outsourcing.

Sage Software's Peachtree Accounting is a competitor to QuickBooks. Peachtree comes in favors like First Accounting, Complete Accounting, Premium Accounting as well as an online version. Microsoft's Small Business Accounting has also recently entered the market.

Thus Outsourcing Bookkeeping services assist bookkeeping services to small, mid-sized and fast growing companies. For more information, you can contact us or visit us at <http://www.outsourcingbookkeepingservices.com> .
