By Steve Fuller, CEO Transmission Rebuilders Network

Dated: Apr 16, 2009

4-16-2009 The Transmission Rebuilders Network International, a leading supplier of connectivity applications for the transmission repair after market has added an integrated shop management application to its full suite of products.

Transmission Rebuilders Network International adds a integrated shop management software to its suite of products.

8-09-2008 The Transmission Rebuilders Network International, a leading supplier of connectivity applications for the transmission repair after market has added an integrated shop management application to its full suite of products.

The Transmission Rebuilders Network Shop management console gives shop managers the ease of a browser based interface. Anyone who knows how to use the Internet knows how to use this tool. Owners get the security of knowing what is going on in their shop at all times, no matter where they are. Corporate management is relieved of the task of collecting and consolidating data from various stores. TRNi is committed to improving with RPM to constantly providing the best enhancements and updates available. Regularly scheduled updates are implemented with zero down time and 100% data integrity. Best of all, there is NEVER a charge for these upgrades. Once you are a subscriber, you are guaranteed to be running the latest version at all times.

The Transmission Rebuilders Network International is a network of over 1200 transmission professionals that are dedicated to helping advance the industry by sharing valuable diagnostic information. TRNi's fix database Transfix® contains over 5000 unique repairs.

Transmission Rebuilder Network International is a worldwide organization with members in 40 + countries.

###

TRNi is a world-wide network transmission technicians, interacting on problems, fixes & diagnosis, hydraulics, functions, bench techniques, part locating & reviewing, assembly tips, and installation tips for the transmission repair industry.

TRNi: The Transmission Rebuilders Network International, is a world-wide network of over 1,000 transmission technicians, interacting on problems, fixes, diagnosis, hydraulics, functions, bench techniques, part locating/reviewing, homemade tools, assembly tips, and installation tips for the transmission repair industry. TRNi members share knowledge, experience, and advice on the science of rebuilding automatic transmissions, and the art of managing a transmission shop. It is also a forum for direct contact with aftermarket and equipment suppliers to the industry. Many times a manufacturer is able to answer a question that a member has on a product or the availability of a product.
