

## **MIE Trak ERP from MIE Solutions Deployed Successfully at Harcon Precision Metals**

*By MIE Solutions, Inc*

*Dated: May 20, 2009*

*Harcon Precision Metals is a valued MIE Solutions customer. They have recently purchased MIE Trak, MIE Kiosk, MIE Docs and MIE Maintenance. Harcon Precision is a made to order production job shop.*

Harcon Precision Metals is located in Chula Vista, California. They have been in the sheet metal business since 1979. A few of the services they offer are custom design/engineering and sheet metal fabrication: laser cutting, waterjet cutting and CNC punch press. Some of the applications they specialize in are for computers and medical products. For a complete list of services please visit their website at <http://www.harconprecision.com>.

“MIE Trak is an extremely powerful and versatile program capable of handling the entire production process, from start to finish. It enables us to manage the large amounts of data generated from our projects into usable, understandable, and actionable reports.” - Ryan Moore, Harcon Precision Metals

Here is some brief information about each of the products Harcon Precision Metals is using:

MIE Trak is an easy to use, production control and job tracking solution designed to help increase operating profits without increasing businesses overhead. MIE Trak is an ERP and MRP system is designed to improve businesses bottom line with a cost effective software solution.

MIE Trak Kiosk data collection software makes using barcode technology to capture employee work through a manufacturing job shop a relic of the past. MIE Trak Kiosk has an easy to use interface with large buttons which enable employee's to clock in/out for the day, in/out of jobs and issue bill of material to jobs for job costing.

MIE Docs is another one of the products that Harcon is using. MIE Docs is a revolutionary file management system designed for a single user up to an organization of 1000's of users. The software manages the hundreds of thousands of files on a company's network with check in/out capability, security including full windows integration.

Harcon is also using MIE Maintenance which is a full CMMS and work order system designed to be used for a company's entire organization. The system is designed to help by preventing the failure before it actually occurs which PM and condition based maintenance help to achieve. It is designed to preserve and restore equipment reliability by replacing worn components before they actually fail.

You can view all of these products and more at <http://www.miesolutions.com/>.

Some of the other products include QuoteIt! and MIE Exchange. For MIE Exchange please visit <http://www.mie-exchange.com/main/home.html>.

###

MIE Solutions is a leading provider of production control software for the entire manufacturing sector. Incorporating MRP, ERP, Scheduling Shop floor data capture (SFDC) with bar coding and costing capabilities. MIE Trak (formerly known as FabriTrak) is the market leading software for sheet metal fabricators, precision engineers and manufacturers. Our services also include training, full product support and on-site implementation.

The mission of MIE Solutions is to apply advanced technology to improve manufacturing productivity and quality in the field of fabrication. At MIE Solutions, we do not compromise product quality or service. We strive to satisfy our customer's every reasonable requirement with speed, courtesy and honesty. Our goal is to be known throughout the world for the development and production of innovative products. We endeavor to be regarded as the leading supplier of high technology in the fabrication industry.
