*Highly anticipated Mysteries of the Heart, the most recent book by Ted Stefan and Liza Glazer. Whether single or in a relationship, this powerful book will reveal why your relationships have failed and what to do to make love work in your life.*

“Our goal is to move you through the journey of love from disappointing and dysfunctional relationships to a Soul Union: a relationship filled with a great pleasure of joy and tenderness,” write authors Ted Stefan and Liza Glazer.

Founders of Golden Heart Spiritual Center, the for-most leaders in their field, Ted and Liza are true innovators. They surely found happiness working with dreams, walking the path of spiritual development, and listening to the ‘still small voice.’ Ted and Liza share their original techniques freely in a loving and open manner through workshops and seminars they hold at Golden Heart Spiritual Center in Los Angeles. Every Human Being is important to God, and every Soul has its purpose. Ted and Liza’s life long journey is proof of a life driven by commitment and dedication to the cause of Creation.

Mysteries of the Heart, available on Amazon.com, will help you with daily maintenance without compromising your true self, but at the same time allow the relationship to move forward on the path of love and unity. In order for a relationship to be successful, it must be tended like a garden: lovingly weeding, hoeing, pruning, picking and planting, so that it does not become overgrown.

You will learn how to release emotions that sabotaged not only your relationships but also your life. You will gain knowledge of how to work with dreams and the incredible benefit of this untapped source of guidance. You will be inspired by many success stories including Ted and Liza, who are a Heavenly Union in action, not just words.

Ted and Liza most recently made an appearance at Los Angeles Times Festival of Books, held at UCLA, April 25th and 26th 2009. [www.latimes.com/extras/festivalofbooks](http://www.latimes.com/extras/festivalofbooks)
