

triCerat Showcases New Simplify Suite v5 at Synergy 2009

By triCerat, Inc.

Dated: May 08, 2009

triCerat recently showcased their Simplify Suite v5 desktop management software solution at Citrix's Synergy 2009.

COLUMBIA, Md. -Synergy 2009, Citrix's premiere IT event, pledges to be the most thought provoking and information packed Synergy yet, remaining specifically focused on virtualization, networking, and application delivery. As a Citrix Ready alliance partner for over ten years, triCerat is pleased to offer products that work in conjunction with Citrix to ensure system compatibility for both the physical and virtual environment.

This mega conference is four events rolled into one with:

iForum - a user conference focusing on Citrix products and technologies.

Geek Speak Live! - a user-led "unconference" where participants pick the topics and lead discussions.

Virtualization Congress - presented by virtualization.info, this event will showcase technologies, products, and guidelines that address the new challenges and opportunities with virtualization.

Network World Live! - leaders in application delivery discuss virtualization and networking technologies.

Breakout session speakers include IT architects, consultants, and product directors from Citrix, Intel, and Microsoft among others. Keynote speakers include Citrix President and CEO, Mark Templeton, Intel Senior VP, Patrick Gelsinger, bestselling author Garr Reynolds, and even comedian Don McMillan. Additionally, there will be an expo with over 70 industry vendors, triCerat included, making this event a must. This year there is truly something for everyone.

Simplify Suite Now Supporting Windows Server 2008 and Workstations

Come visit the MGM Grand, booth #440 and find knowledgeable and gregarious triCerat staff looking forward to speaking with you and showing you around the new Simplify Suite v5. Simplify Suite makes desktop management - <http://www.tricerat.com/topics/desktopmanagement> - more efficient and effective. With expansive platform continuity and increased system performance and stability capabilities, this robust yet simple-to-use total user environment management solution gives you the tools to:

- Reduce printing problems
- Command the access of applications to users
- Diminish logon and logoff times
- Administer personalization for any number of virtual desktops
- Provide users with a highly customized and predictable desktop
- Bring the correct profile information to the right user and location at every session
- Enhance user production by increasing the efficiency of the user desktop

###

About triCerat

Founded in 1997, triCerat develops software that simplifies and enhances the operation of workspace

environments. The company's flagship product, Simplify Suite, is a comprehensive package of integrated server management tools that boost the manageability, reliability, performance, and security of Microsoft Terminal Services, workstations, and virtual environments. Licensed by over 8,000 customers worldwide, Simplify Suite creates significant ROI by reducing support and hardware costs while increasing user productivity. Visit <http://www.tricerat.com/topics> for more information about how triCerat can help with your desktop virtualization environment, or visit <http://www.tricerat.com/topics/citrixprinting> for specifics about triCerat's citrix printing solutions.
