

Critical Reviews Org. Releases A Survey On Popular Make Money Online Program Profit Lance

By Yves Bernard

Dated: May 08, 2009

Consumer-friendly Critical Reviews Org. warns against scams and presents a thorough analysis of Profit Lance reviews aimed to educate potential buyers.

Toronto - Critical Reviews Org. today released a comprehensive survey on Profit Lance reviews. The popular Profit Lance Online Marketing Courses by Michael Andrews appeared on the Internet nearly three years ago. In the make money online field it quickly stood out as one of the few legitimate programs, provoking from the start considerable interest and positive criticism. It was notably featured in magazines like CBS Market Watch, FORBES or CNN Money and its creator was even invited to TV and radio shows.

Yet does Profit Lance really deserve its reputation as a good make money online program ? By definition no tangible proof of its success can be found online and the responsible average computer user still has some very good reasons to remain skeptical. In fact it takes very little time to realise that a significant number of Profit Lance reviews emanate from affiliate programs only seeking to promote the product. Those programs often use the same hype techniques as in sales pages, which only adds to confusion. Furthermore, close scrutiny shows that even comments posted on forums or blogs can be biased and that there are on the whole very few reviews left to rely on.

The only possibility for online consumers to get a good idea of the product and make sure Profit Lance will live up to his or her expectations is to spend hours investigating over the Internet, provided that they have all critical tools and necessary judgement to conduct a proper research.

This is precisely to spare consumers all these efforts that Critical Reviews Org. have selected some of the most reliable Profit Lance reviews on the Internet. After a comprehensive survey on over fifty reviews they have listed both the advantages and the downsides of the product in a concise review available on their new website <http://www.profitlance-bestreview.com>.

Critical Reviews Org. is a consumer-friendly organization. While they do promote the Profit Lance Online Marketing Courses, they offer an innovative approach to marketing in this field by basing their review not only on the product itself but also and mainly on other existing quality reviews. All their sources are published on their website and can be verified. They even provide useful tips and critical tools to educate consumers and help them make their own research.

###

Critical Reviews Org. is an independent organization fully dedicated to the consumer.

We only promote the products we believe in and it is upon our honesty and our sense of criticism that we want our reputation to grow online.

We have purchased, analysed and tested Profit Lance. However, unlike other marketers, we do not expect our readers to accept blindly all information we provide.

That is why our reviews are based not only on a thorough knowledge of the product but also on a

comprehensive survey of at least 50 reliable reviews about the product.

This is your guarantee that we provide a professional and reliable service.
