

Sun-Tel USA Lights Up Jacksonville with High Speed Business Internet T1 Service

Sun-Tel USA a leading competitive telecommunications service provider has built a fast secure wireless T1 service in Jacksonville Florida. Businesses are now free to choose wireless T1 services.

May 9, 2009 - [PRLog](#) -- Sun-Tel USA is competing head to head with the incumbent ISP and Telco companies Comcast and ATT for high speed business internet services in Florida. In the first phase of this wireless build out businesses within the Jacksonville coverage area can get wireless T1 services starting at \$199.00 per month.

Not only is this half the normal rate for an internet T1 installation is typically done in less than 7 days from the time the order is finalized with a 30 day satisfaction guarantee. No one else can offer such installation speeds since typical T1 installation times are 25-45 days.

Along with the T1 internet offering Sun-Tel USA can also offer Hosted PBX services and SIP Trunking on it's T1 and DSL service offerings. Fax can be done via voip as well or a regular analog line can be installed by Sun-Tel USA for credit card terminals, alarm systems and faxing.
