

ISO 27000 Signature Security Solutions from ecfirst Addresses U.S. Federal&State Compliance Mandates

By ecfirst

Dated: May 12, 2009

Organizations are increasingly considering applying the ISO 27000 international security standards to comply with various federal and state regulations.

ecfirst, the leader in compliance and security solutions, today announced a range of several BizShield™ Signature ISO 27000 solutions to enable organizations to address the mandates of U.S. federal and state regulations. The ISO 27000 is a global standard that provides a comprehensive framework for organizations to adopt to address compliance requirements and establish a resilient information infrastructure.

To learn more about this global information standard, including ISO 27001 and ISO 27002, join cyber security and compliance expert, Ali Pabrai for the first of its type webcast on Getting Started with ISO 27000 on June 4, 2009. To register, please visit www.ecfirst.com.

The ecfirst BizShield™ methodology is specifically focused on the ISO 27000 standard and includes the following core components:

- A fast paced, instructor-led, 1-day Introduction to ISO 27000 (ISO 27001 and ISO 27002) training delivered at your site.
- A 2-day in-depth certification program, Certified Security Compliance Specialist™ (CSCSTM) that addresses ISO 27000, PCI DSS, HIPAA, HITECH, FISMA and a lot more
- ISO 27002 Security Policy Templates that can easily be tailored to enable your organization establish a comprehensive library of policies
- The industry's first ISO 27002/HIPAA Security Rule Mapping Framework document
- Managed Compliance Services Program (MCSP) for ISO 27000 enables your organization to leverage deep ecfirst ISO expertise and yet pay a fixed monthly fee for a 36-month period and access a range of services at a fixed price

Ali Pabrai, the chief executive of ecfirst, comments "The ecfirst secret sauce with the ISO 27000 is its unique combination of 1-day training, policy templates, and signature security methodology that provides a step-by-step approach to address compliance requirements with a mature security framework that is globally accepted. Organizations are looking for a single information security framework to fully comply with these myriad requirements."

ecfirst's fast-paced, 1-day private training on ISO 27000, its policy templates, quick reference cards, and deep consulting expertise embodied in its signature methodology, BizShield™, are enabling organizations to easily adopt the ISO standard."

Organizations are increasingly considering applying the ISO 27000 international security standards to comply with various federal and state regulations. ecfirst can accelerate your efforts with project activities in information security and compliance.
