

New "Art Of Fluid" Website Up And Running - Robert Kernodle's Fluidism Gets Face Lift

By Robert Kernodle

Dated: May 21, 2009

Robert Kernodle streamlines the presentation of his fascinating "art of fluid" at a new website hosted by yola.com

USA, Robert Kernodle has streamlined his portfolio of beautiful fluid images, along with descriptions and written accounts of his fluidism philosophy, at a brand new website named ***Art Of Fluid*** - <http://robertkernodle.yolasite.com>

This move comes in the wake of two recent developments in the world of web hosting:

(1) Yahoo.com has decided to eliminate its geocities web hosting service later this year, and (2) synthasite.com has changed its name to yola.com to reflect its renewed commitment to offering a brand of web hosting that is accessible to everyone.

Yola.com boasts a slick appearance, providing clear, clean, logical presentations of both text and images. Yola's image galleries work synergistically with yahoo's flickr.com, a well-known internet community where photography enthusiasts and professionals (including Kernodle) share their best images worldwide.
