According to the complaint the plaintiff alleges that Morgan Stanley Capital I Inc. and certain of its officers and directors, the issuers and underwriters of the above stated certificates and the rating agencies that rated these Certificates violated the Securities Act of 1933. The complaint alleges that on December 23, 2005 (with amendments on February 17, 2006 and March 14, 2006), Morgan Stanley Capital and the defendant issuers caused the Registration Statement to be filed with the SEC in connection with the issuance of billions of dollars of Certificates. And the Registration Statement omitted and/or misrepresented the fact that the sellers of the underlying mortgages to Morgan Stanley Capital were issuing many of the mortgage loans to borrowers who did not meet the prudent or maximum debt-to-income ratio purportedly required by the lender, did not provide adequate documentation to support the income and assets required for the lenders to approve and fund the mortgage loans pursuant to the lenders' own guidelines, were steered to stated income/asset and low documentation mortgage loans by lenders, lenders' correspondents or lenders' agents, such as mortgage brokers, because the borrowers could not qualify for mortgage loans that required full documentation, and did not have the income required by the lenders' own guidelines to afford the required mortgage payments which resulted in a mismatch between the amount loaned to the borrower and the capacity of the borrower, so the lawsuit.
