

Eos Systems & RDA Enterprises Cooperative Alliance

By Eos Systems & RDA Enterprises

Dated: May 26, 2009

Eos Systems, Inc. and RDA Enterprises, Inc. to deliver technology solutions to their expanding National and International client network.

Boston, MA & New York, NY

Eos Systems, Inc. and RDA Enterprises, Inc. today entered into a Cooperative Alliance that will deliver technology solutions to their expanding National and International client network.

Solutions will be in the areas of Identity Management, Collaboration, Integration, Security and Customized Programming. The business cooperation is underscored by a geographic and technological balance that will substantially strengthen both companies.

Costas Speliakos, President/CEO of Eos Systems and Robert Diaz, President/CEO of RDA Enterprises see this alliance as a way to utilize complementary competencies towards the common goal of providing sound technology solutions. The expanded coverage will bolster key vendor partnerships with Novell, Microsoft, Citrix, Sage, Intuit, Sophos, Barracuda Networks, Symantec, Hewlett-Packard and VMware.

This initiative gives both organizations the ability to leverage expertise and expand client offerings by means of shared resources that will yield robust growth and expansion into a larger business ecosystem. The collective strength of these Award Winning Novell Platinum Partners will access a broad business audience via their strategically-placed network of offices in New York City, Boston, Los Angeles, Salt Lake City, Chicago, Miami, Indianapolis and Europe.

Eos Systems and RDA Enterprises see this as a first step towards an advanced collaboration of ideas, solutions and offerings that will further benefit clients.

About Eos Systems

Eos Systems is a leading Technology Solutions Provider with a highly skilled staff of technical professionals. The guiding principle at Eos Systems is the belief that greater efficiency and business productivity should be the goal of today's complex organizations. Eos Systems provides advice and solutions for clients in information-intensive fields, which include banking, law, education, manufacturing, healthcare and government.

Eos Systems' services include assessing a client's strategic needs, providing specific recommendations, creating customized solutions that consist of multi-vendor products, and offering on-going service and technical support.

Eos Systems' staff has extensive experience in the current key technologies with levels of certifications to provide the highest standard of service to their clients.

Eos Systems was established in 1997 and is headquartered in Boston, Massachusetts. North American Operations are integrated with satellite locations in the East Coast, Midwest and West Coast.

Eos Systems - Aligning Technology with Business Process

About RDA Enterprises

RDA Enterprises, Inc. is a full-service network integrator providing resources to design, implement and support all Information Technology needs. RDA's track-proven methodology designed to fit our clients' business objectives, help reduces IT costs and optimize productivity.

RDA's expertise include Services and Support, SAN and High Availability Solutions, CRM Consulting, Customization and Integration for QuickBooks and GroupWise, and Comprehensive Needs Assessments.
