

Learn how to implement an ERP System into your business and avoid costly mistakes.

By Julianne McLaughlin

Dated: May 26, 2009

Blue LAN Group, Inc. (BLG) announces a business lunch and learn event for any business who currently uses an in-house accounting system and wishes to move to a mid-range ERP system.

Blue LAN Group, Inc. (BLG) announces a business lunch and learn event for any businesses who currently use an in-house accounting system.

If you are looking to implement an ERP solution in the near future this is a must attend event. ERP systems are EXPENSIVE and choosing the wrong one for your company's needs will be VERY COSTLY. BLG will walk you through the pitfalls of selecting the right ERP system for your company. BLG will outline the steps you need to follow to accomplish this. These steps will include selecting your in house implementation project team, performing your needs analysis, evaluating potential systems, identifying must haves, and managing the implementation process.

This event is not geared towards any specific product as the right ERP product is the one that fits your company's needs the best. This event will help you identify what that product is.

Come join us for this lunch & learn:
